

EMS Auditor Training for QMS-Experienced Auditors

Course Description

“EMS for QMS Auditors” course teaches the principles and practices of effective environmental management systems (EMS) and process audits in accordance with the ISO 14000 series of standards and ISO 19011:2002, “Guidelines for Quality and/or Environmental Management Systems Auditing.” Experienced instructors guide students through the entire audit process, from managing an audit program to reporting on audit results. Students gain necessary environmental auditing skills through a balance of formal classroom tutorials, practical role-playing, group workshops, and open forum discussions.

Learning Objectives

- Understand Environmental Management Definitions, Concepts, and Guidelines
- Understand the Purpose of the ISO 14000 Series
- Understand the Requirements of ISO 14001:2004 standard
