

ISO 9001:2000 Internal Auditor

Course Description

Internal Auditor Course teaches the principles and practices of effective internal audits in accordance with the ISO 9000 series of standards and ISO 19011:2002, "Guidelines for Quality and/or Environmental Management Systems Auditing." Experienced instructors guide students through internal audits that are required for a quality management system based on ISO 9001:2000. Students gain necessary auditing skills through a balance of formal classroom tutorials, practical role-playing, group workshops, and open forum discussions.

Learning Objectives

- Provide the basics for understanding how to audit Quality Management Systems
- Explain the differences between internal, external and third party Quality Management System auditing
- Explain and demonstrate all essential steps and techniques required for Quality Management System auditing , from planning through audit follow up
- Provide participants with sufficient training that will permit them to function immediately as members of a Quality Management Systems audit team
- **Course Materials**

Students receive comprehensive course manuals with reference materials, including:

- Copy of ISO 9001:2000
- Copy of ISO 19011:2002
